Dear Ms Bonnici

**Operational Programme I
Re: Environment report of the strategic environment assessment**

Kindly note that following the first round of consultations on the draft environment report and the subsequent amendments to the document based on feedback received, the second round of consultation did not yield any additional comments to the changes made.

Consequently, the proponent is advised to progress with the finalisation of the environment report. Meanwhile, the Audit Team will finalise its opinion report on the outcome of the SEA process of Operational Programme 1.
